

## Multiple test results from a single swab (IANZ Accredited)

---

By integrating PCR and Tempo testing platforms, multiple organisms can be tested with one swab streamlining testing processes and reducing the need for single-use plastics. This translates to reduced plastic waste and improved operational efficiencies for the food industry and the lab. There are several combinations available to suit your needs.

### 2 in 1 Combinations

#### Option 1

- Enterobacteriaceae enumeration
- *Salmonella* detection

#### Option 2

- Enterobacteriaceae enumeration
- *Cronobacter* detection

#### Option 3

- *Salmonella* detection
- *Cronobacter* detection

### 3 in 1 Combinations

#### Option 1

- *Listeria* species and *Listeria monocytogenes* detection
- *Salmonella* detection

#### Option 2

- Enterobacteriaceae enumeration
- *Listeria* species and *Listeria monocytogenes* detection

#### Option 3

- Enterobacteriaceae enumeration
- *Cronobacter* detection
- *Salmonella* detection

### 4 in 1 Combinations

#### Option 1

- Enterobacteriaceae enumeration
- *Listeria* species and *Listeria monocytogenes* detection
- *Salmonella* detection
